Relevant Experience

Freelancer June 28 – Present

- Proficient in web app and Java desktop app development for student clients, delivering high-quality solutions on tight timelines.
- Collaborative leader, working closely with stakeholders to architect technical solutions that meet business requirements.
- Advocated for accessibility initiatives, promoting inclusive development practices, and providing technical documentation on best practices.
- Stayed at the forefront of technology trends, continually expanding skills and knowledge in diverse technologies.
- Notable projects include dynamic web apps for academic collaboration and Java desktop app for streamlined course registration.

Personal Projects

Build an E-commerce Web Application (<https://exclsv.vercel.app>)

MERN stack, TypeScript, RTK, and Tailwind CSS used to create a user-friendly E-commerce platform. Demonstrates my web development skills and commitment to continuous learning.

Build a Chatroom Web Application (Not deployed yet)

MERN stack and Socket.io used for real-time communication. Styled-Components for a visually engaging UI. Showcases my expertise in web development and passion for cutting-edge technologies.

Build a Social Media Web Application (In Progress)

MERN stack, TypeScript, and Socket.io for real-time notifications. Redux Toolkit for state management and Tailwind CSS for styling. Demonstrates my ability to build feature-rich applications with modern technologies.

Build a Personal Portfolio Website (Not complete)

A showcase of my journey as a web developer, highlighting projects and skills. Using Vite, TypeScript, and React.js, I design an interactive platform to display my work and passion for innovative web solutions. Stay tuned for updates as I continue to build and share my latest projects with the world.

Skills

Programming Languages

JavaScript, TypeScript, Python, Java
HTML, CSS, SAAS

Libraries & Frameworks

React, Next.js, React Native,
Tailwind, Node.js, Express.js, RTK,
Framer-motion, Socket.io

Tools & Platforms / Database

Git, Github, Netlify, Vercel, Render,
Webpack, Vite, Firebase, Figma,
MongoDB, MySQL

Education

Lyceum Of Alabang
Bachelor of Science in Computer
Science

Interest

Programming, Gaming, Basketball,
Reading
